-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 6/27/05.  
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by Iwabuchi (6,454,636 B1).

**With respect to claim 14**, Iwabuchi discloses a grinding wheel (8) rotatably supported on a wheel slide; a workpiece holder (27) configured to support a workpiece (7) to be grinded by the grinding wheel; and means (22) for cooling the grinding wheel and workpiece with coolant (see fig. 1).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Iwabuchi (6,454,636 B1) in view of Hatamoto et al (6,273,795).

Art Unit: 3723

**With respect to claim 15**, Iwabuchi fails to disclose means for recirculating the coolant.

Hatamoto et al. disclose a grinding machine that includes means for recirculating a coolant (see col. 3, lines 53-60 & fig. 1).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide apparatus of Iwabuchi with means for recirculating a coolant in view of Hatamoto et al. so as to ensure continuous jetting of the coolant toward the grinding wheel.

Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Iwabuchi (6,454,636 B1) in view of Applicant Admitted Prior Art (AAPA)

**With respect to claim 16**, Iwabuchi fails to disclose means to cut off air layer flowing on circumferential surface of said grinding wheel.

**AAPA** discloses in figure 6 and on page 9, lines 9-16, **means** (35) to cut off air layer flowing circumferential surface of said grinding wheel (G).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the apparatus of Iwabuchi with means to cut off air layer flowing on circumferential surface of said grinding wheel in view of AAPA so as to reduce air layer flowing on the circumferential surface of grinding wheel.

***Allowable Subject Matter***

Claims 1-13 are allowed.

***Response to Amendment***

Applicant's arguments with respect to claims 14-16 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3723

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Ojini whose telephone number is 571 272 4492. The examiner can normally be reached on 7 to 4 Tuesday-Friday with every other Monday off.
